## DETAILED ACTION

### *Response to Election*

In the Election/Restriction Response dated 02/07/2005, Applicant has elected without traverse the invention of Group I, claims **1-17, 31 and 32**, drawn to a semiconductor device. Accordingly, claims **18-30** are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 35 § 1.142(b) and MPEP § 821.03. Applicant has the right to file a divisional application covering the subject matter of the non-elected claims **18-30**, drawn to a method. However, the invention of Group I, claims **1-17, 31 and 32**, also contains claims directed to the following patentably distinct species:

- a) Species I, claims **1-17**: A vertical DRAM cell device comprises a buried strap.
- b) Species II, claims **31 and 32**: A vertical DRAM device comprises a ratio between a trench depth and a separation width.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2818

application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
